

A-dec 2000

 a/dec[®]

Large, convenient tray holds everything you need.

Designed with you in mind

The best way to know what dentists need in a chair and delivery system is to ask. We did. A-dec 200 was developed to meet your specific requirements and be a reflection of your personal style. We understand that every minute with a patient counts. Every detail matters. Like you, we're driven to make your practice the best it can be. Your equipment reflects your skill and the quality of your care. You will find that every curve, soft line, and detail on A-dec 200 is designed to enhance patient care.

Patients will rest comfortably on the double-articulating headrest and smooth, seamless upholstery.

A modern dental unit featuring a white, oval-shaped sink. Above the sink is a rectangular control panel. Below the sink, a white tray holds several dental instruments, including a high-speed handpiece, a low-speed handpiece, and a control panel with blue buttons. The unit is mounted on a metal stand.

Designed for durability

Get a clear view. The optional A-dec LED light gives you outstanding illuminance, positioning, and low cost of ownership.

Your equipment needs to work when you do. That's why A-dec manages the manufacturing processes, so we can provide doctors with the most durable, reliable equipment. For example, we build, test, and qualify each chair cylinder from raw material to the finished assembly. And we manufacture our own high-quality delivery system tubing. Our production systems are consistently monitored to ensure that they meet A-dec quality standards. With the A-dec 200 solution, you get a strong, robust system designed to withstand years of constant use.

Designed to perform

A-dec 200 is a system that's not only made to last, but made to grow and evolve with your practice. Detailed features such as a stain-resistant cuspidor that rotates toward the patient, a telescoping assistant's arm for close work, and a touchpad that integrates chair, light, and cuspidor functions all add up to a better workflow. For future expansion, an open platform leaves room to add or change ancillary devices. You get peak performance now, and years from now.

- Three axes light head lets you position the light at just the right angle for you and your patient.
- Four preset chair positions give you added flexibility for positioning the patient.
- Ancillary accommodation allows you to add new technology as your practice evolves.
- The chair's two-position armrests and seat articulation provide patient comfort.
- Sleek covers keep surfaces clean.

Delivery System

Keep everything you need within reach to increase the speed of treatment. For added accessibility, position the adjustable instrument holders at the most comfortable angle.

Touchpad

Operates chair, light, and cuspidor to put functionality at your fingertips.

Monitor Mount

The monitor mount positions easily over the patient for convenient patient consultation and education.

Monitor mount

Cuspidor and Support Center

The porcelain cuspidor swivels for just the right patient position. Easy-to-fill, two-liter water bottle provides a continuous water supply through multiple procedures. The support center offers ample storage room to add ancillaries such as amalgam separators and vacuum systems.

Self-contained water bottle.

Seamless Upholstery

A sleek vacuum-formed fit with no visible seams makes cleaning and maintenance easy.

Assistant's Instrumentation

Situate vacuum instruments for convenient access to patient with the three-position holder and telescoping arm.

Single three-position holder shown with optional touchpad and syringe.

Building relationships

A-dec is headquartered in Newberg, Oregon USA, but our customers span six continents – every one except Antarctica. Schools and institutions in more than 75 countries rely on A-dec equipment to withstand the rigors of continual use day after day, year after year. Yet with A-dec, you get more than quality equipment. You get full service and support long after the sale and installation. You get local dealers and service professionals, who will respond to your needs and keep you working. And, you get the benefit of over 50 years of experience to help your practice grow. If you ever have a question, concern or even an idea for improvement, we're just a phone call away. We're here to help you succeed, because at A-dec we don't just build equipment. We build relationships.
